Bucket Truck Safety Training

Sign up for our safety class on mobile elevating work platforms

Description

A one-day class focused on vehicle-mounted rotating and elevating work platforms. The session will meet the ANSI Trailing Requirements for Use, Operation, Inspection, Testing and Maintenance of Mobile Elevating Work Platforms—ANSI/SAIA A92.2 and 29 CFR 1926.435.

Training format will be a combination of classroom instruction, including lecture, interactive dialogue, and written exam, as well as hands-on familiarization with vehicle mounted equipment.

Format

The Construction Safety Council will lead classroom discussion and Runnion Equipment technicians will provide expert advice related to inspection, maintenance, and safe operation.

Documentation

Upon successful completion of the course, trainees will receive a photo ID card as evidence of participation.

Class Size

Limited to 12 participants.

Pricing—\$295

Fees are non-refundable due to limited class size; Due to the popularity of this class, we cannot hold space without pre-payment for the attendee.
